—Scientists have discovered that the human mouth is slowly but surely working toward the left, and in course of time will reach the neighborhood of the ear. The chief reason of this is that humanity has a tendency to chew entirely with the teeth of the left jaw. But it is also true that a great many mouths "get left" in their struggle for bread.

—A laborer employed on the D. & M. Ry. construction train was badly injured on Thursday afternoon. In attempting to jump on the rear end of the train he fell in such manner as to break his arm in two places; the bones being forced through the flesh. His back is also injured and he is badly bruised up generally. He was unable to give his name when brought in and all that is known of him is that he came from Weston; was hurt near Roachton and was brought here on a handcar. —The onion is highly recommended as a cure for colds, and is said to be better for that purpose than quinine. The onion acts as a cathartic and diuretic, and will much help to break up a cold. For best effects the onion must be slowly eaten raw. It is a great medicine. A doctor says: In my home we have them cooked twice a week, and whoever of the family is threatened with a cold eats some onions raw. If this vegetable were generally eaten raw there would be no diphtheria, gout, rheumatism, kidney or stomach troubles. If you are suffering from a cold, and looking forward to a restless night, slowly eat a raw onion, then go to bed with warm feet. You will soon go to sleep and wake about well in the morning. Try it.—Ex.

George Keller was arrested on the charge of taking goods from the grocery store of Charles Stevens, an old citizen who makes an honest living by selling a few groceries. —J. F. Brandhuber and wife were passengers on the ill-fated Lake Shore train that was run into at Toledo on Saturday night last, and would have been in the rear car, which was the first-class car, had it not been for the fact that they were unable to procure suitable seats when taking the train at Elkhart, and consequently secured seats in the sleeping car which was located in the middle of the train, and by doing so they undoubtedly saved themselves from being killed or at least, badly injured.

—The union Thanksgiving service was held in the Methodist Episcopal church, which was well filled. The music was rendered by the Walnut St. Presbyterian choir and was enjoyed by all. The devotional exercises were conducted by the three ministers present, Mr. Johnson, Mr. Adams and Mr. Shaw, after which Mr. Johnson preached from the words—The earth is the Lord's and the fullness thereof, of the world and they that dwell therein. It is not easy to give anything new in a Thanksgiving discourse, but the preacher on this occasion succeeded admirably. The audience departed feeling that the service had been very pleasant and successful.

—J. C. Maddy has been visiting friends in Perrysburg this week. He has closed out his commission business in Chicago. For the past three weeks he has been caring for his mother who was taken to Cincinnati for medical treatment, and whose death occurred a few days since. Since the burial of his mother he has been engaged in business in Toledo but may possibly again locate in Perrysburg, and take charge of the elevator here. The business during his absence has been conducted by Mr. Franklin, who has been well liked by all who have had dealings with him, but as Mr. Maddy was the first to revive the grain trade in our town, the people naturally have a very warm regard for him and are much in hopes he will again locate here. Mr. Maddy seems to like the town and the people in it and we venture the prediction that he will be with us again.
